PORTFOLIO UPDATE

During the month of February 2023, the Fund NAV increased by 0.10% as against decrease of 0.53% for the Bloomberg Emerging Market USD Corp and Quasi 1-3 Yr Index. The increase in NAV was led by Bahrainian credits, while was partially offset by Mexican credits. Sectorally, Financial, Consumer Cyclical and Government sectors were the key positive contributors, partially offset by Communications and Energy sectors. The increase in NAV was also partly contributed by the mark-to-market gains from interest-rate swaps (IRS) as market priced-in higher number of rate hikes.
