During the month of July 2024, the Fund NAV increased by 1.78% as against the Bloomberg Emerging Market USD Corp and Quasi 1-3 Yr Index which increased by 0.91%. The increase in NAV was primarily due to Indian, British and Australian credits. Sectorially, Financial, Energy, and Consumer Cyclical were the key contributors. The increase in NAV was also partly offset by the mark-to-market losses from interest-rate swaps (IRS) as market priced in higher rate cuts.
