PORTFOLIO UPDATE

During the month of October 2024, the Fund NAV increased by 0.23% as against a decrease of 0.09% for Bloomberg EM USD Corp and Quasi 1-3yr Index. The increase in NAV was primarily led by Indian, and British credits which was partly offset by US credits. Sectorially, Financial, and Basic Materials sectors were the key positive contributors which was partly offset by Consumer Cyclical sector. The increase in NAV was also due to mark-to-market gain in interest rate swaps (IRS) as markets priced in lower rate cuts.
