PORTFOLIO UPDATE

During the month ending 29th November 2024, Silverdale Bond Fund bought BBVA Bancomer, BNP Paribas, Credit Agricole, HSBC, Jaguar Land Rover and Lloyds Banking Group bonds, while it sold JSW Steel, Prospect Capital, Santander UK Group and Standard Chartered bonds. It traded in Barcalys bonds. It also received the maturity proceeds from Natwest and PT Adaro Indonesia bonds.

The decrease in the fund NAV was primarily due to Indian and Hong Kong credits, while it was partly offset by American, German and British credits. Sectorially, Consumer Non-Cyclical and Utilities were the main detractors, while it was partly offset by Financial, Consumer Cyclical and Basic Materials sectors.

Silverdale Bond Fund continues to be positioned conservatively, with 75% of its portfolio being high quality Investment Grade bonds with a short duration of 2.30 years, yet it has leveraged YTM of 8.99%, pointing towards potential higher returns in the coming months, which will get further boosted by interest rate cuts.
