FUND COMMENTARY

During the month ended 31st January 2025, the Fund NAV increased by 1.67% as against an increase of 0.89% for Bloomberg EM USD Corp and Quasi 1-3yr Index. The increase in NAV was primarily led by Indian, French and Swiss credits. Sectorially, Financials, Consumer Non-Cyclical and Utilities sector were the key contributors. The increase in NAV was partly offset by the mark-to-market losses from interest-rate swaps (IRS) as market priced in more rate cuts.
