#### FUND COMMENTARY

During the month ended 28th February 2025, the Fund NAV increased by 2.18% as against an increase of 0.86% for Bloomberg EM USD Corp and Quasi 1-3yr Index. The increase in NAV was primarily led by Indian, French and Mexican credits. Sectorially, Financials, Energy and Consumer Cyclical were the key contributors. The increase in NAV was partly offset by the mark-to-market losses from interest-rate swaps (IRS) as market priced in more rate cuts.
